Dear Hiring Manager,

I'm thrilled to apply for the Front-end Developer position. Currently enrolled in an Advanced Diploma program in Computer Programming and Analysis at George Brown College, I have acquired robust skills in HTML, CSS, JavaScript, and React.

My recent internship at XYZ Web Solutions allowed me to contribute to responsive web design projects, optimize user experience, and collaborate effectively within agile teams. I am passionate about creating intuitive, engaging user interfaces and would love the opportunity to bring my expertise to your esteemed organization.

Thank you very much for your consideration.

Sincerely,

Dhrumil Kumbhani
